The A Team

U1. As an admin I want to be able to create posts so that I can share information with the viewers on the app.

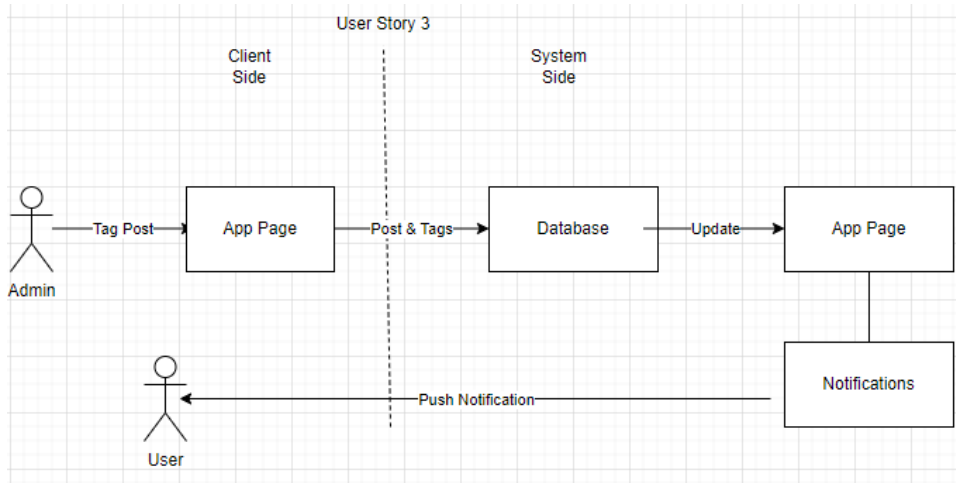

U2. As an admin I want to be able to edit posts I create so that information can be updated and/or corrected.

U3. As an admin I want to be able to delete posts so that if information is no longer relevant it can be removed.
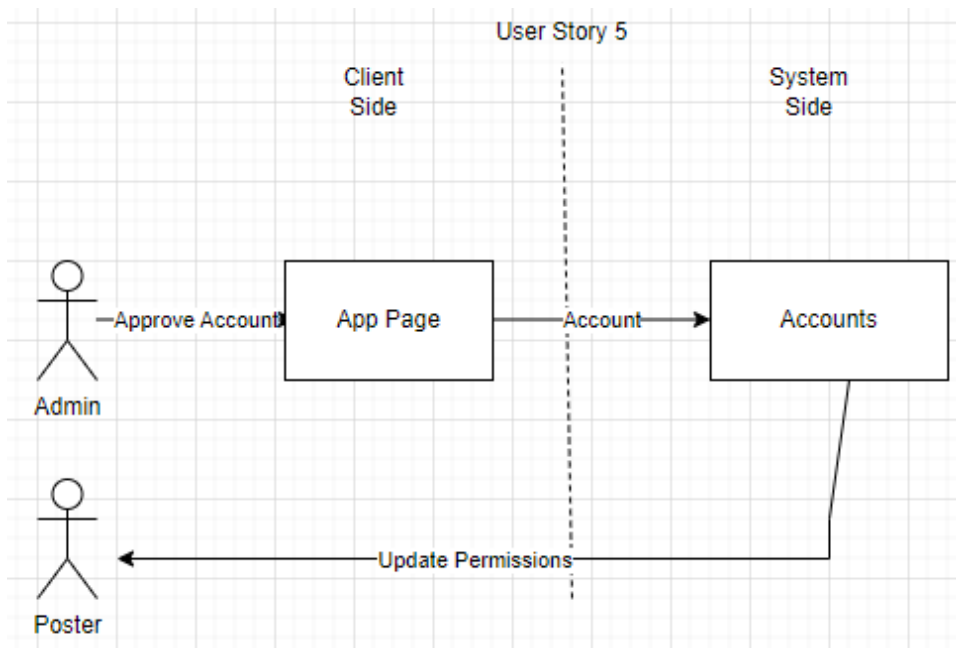

U4. As an admin I want to add tags to posts so that viewers who are interested in the tagged content will be notified when the post becomes public.

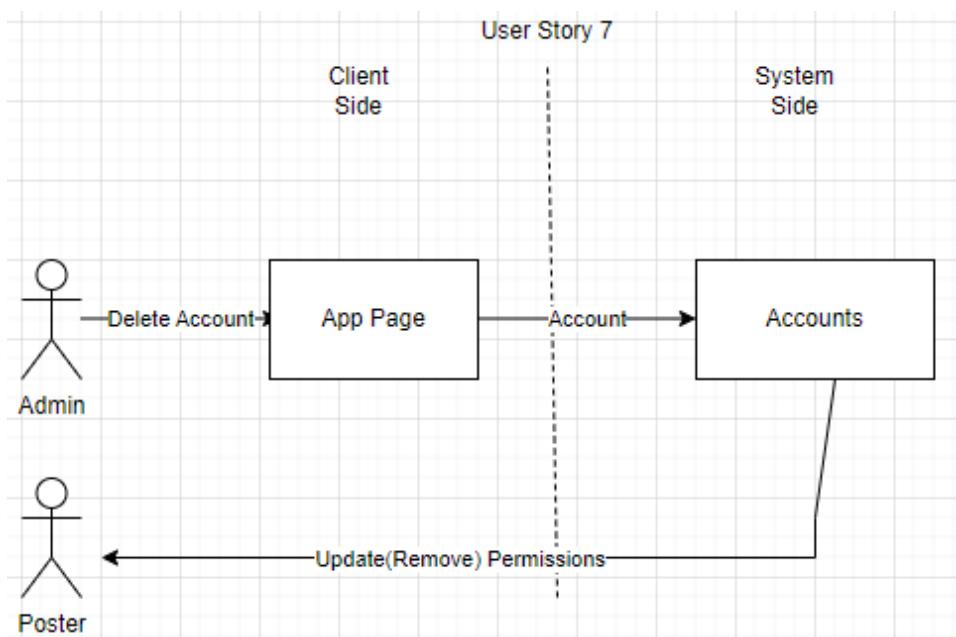

U5. As an admin I want users to be able to share whether they're interested in attending an event so that the expected turn out can be easily determined.

U6. As an admin I want to be able to approve poster accounts, so that I can ensure that accounts that can create and edit posts are vetted and legitimate.

User Story 5

Client Side

System Side

Admin —Approve Account→ App Page —Account→ Accounts

Poster ←—Update Permissions—

U7. As an admin I want to be able to delete other poster or viewer accounts so that I can maintain the integrity of the application.

User Story 7

Client Side

System Side

Admin —Delete Account→ App Page —Account→ Accounts

Poster ←—Update(Remove) Permissions—

U8. As a viewer I want to be able to specify which tags interest me so that I can receive information relative to my interests.

User Story 8

| Client Side		System Side
User —Select Tags→	App Page —Account & Tags→	Accounts
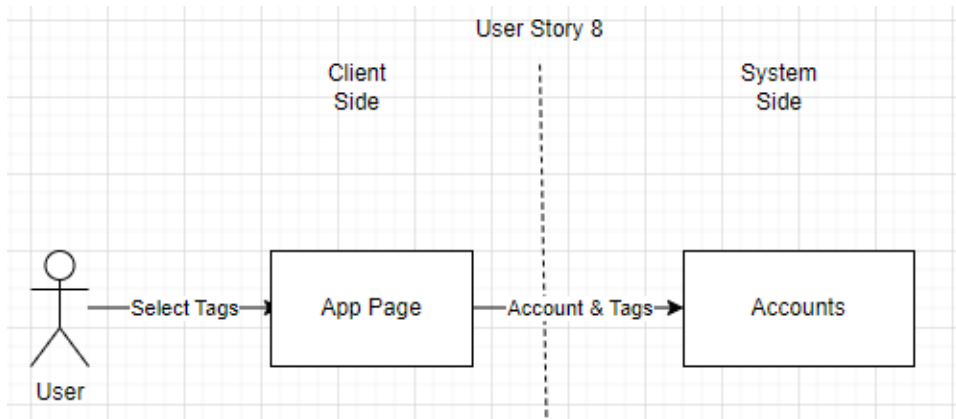

U9. As a viewer I want to be notified when a post regarding one of my interests is made public so that I can review that information as soon as possible.

User Story 9

Client Side — System Side

Poster —Create Post→ App Page —Post (With tags)→ Database —Search Tags→ Accounts

Update

User ←See Post Tagged— App Page

Create Notification

Tagged Users ←Push Notification— Notifications ←Label—

U10.As a user I want a personal feed so that I can browse all posts with tags relevant to my interests.

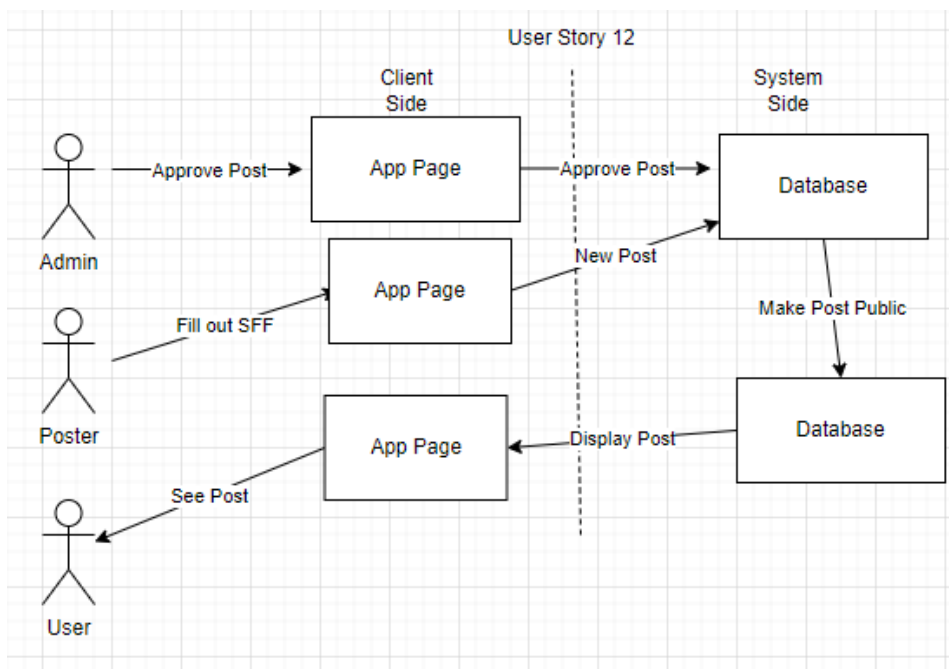

U11. As a user I want to be able to have access to a feed where I can see all posts, so that I can explore information that I may not have known interests me.

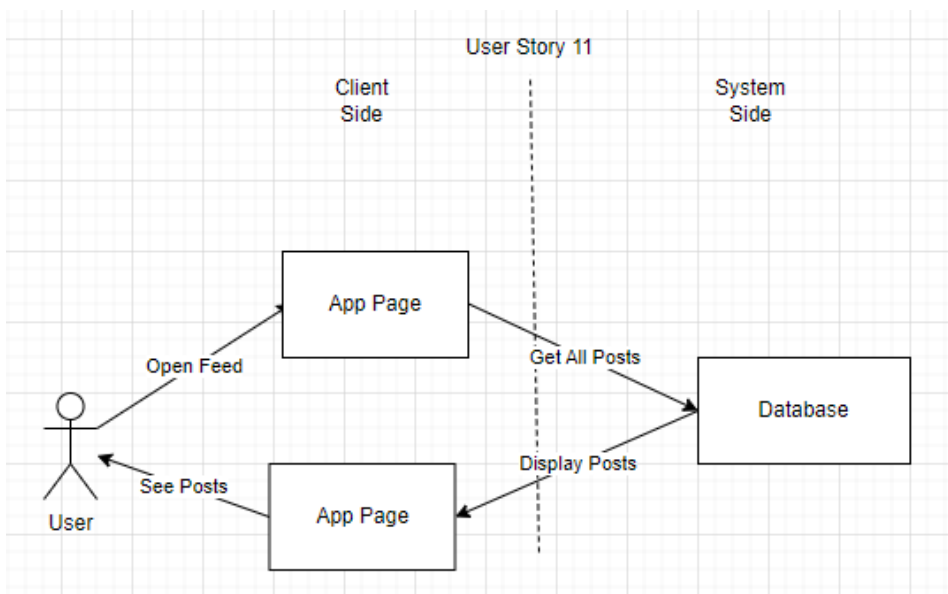

U12.As a user I want to be able to sort all posts by multiple metrics (most recent, tags, title, etc.) so that I can navigate all the posts more easily.
